### Wide Experience

### New U.S. Consul Arrives in City: Family Coming

Robert McCalla English, recently appointed United States consular representative here, arrived in the city Tuesday morning and is a guest at the Macdonald hotel. He succeeds John Randolph, consular general for Alberta, who retired June 26.

Born in New Hampshire Mr. English has been in the American consular service since 1927 when he joined the consulate at Algiers in an clerical post. Two years later he was attached to the consulate at Gibraltar, and then was posted to Constantinople and later to Bangkok, Siam.

He was attached to the embassy at Paris from 1933 to 1937, and from there came to Ottawa as second secretary and American consul at the American legation at the Canadian capital.

In 1940 he was appointed to the post of American consul in New Zealand, and served there until about two months ago when he returned to Washington, D.C.

Mr. English will join his wife here as soon as accommodation can be obtained. They have

two children, Ann, eight years old and Joseph, six. The latter is called after his grandfather, Joseph Clark Greer, a famous figure in American diplomacy who was for years the American ambassador to Japan. Incidentally Mr. Greer will visit his daughter here later this summer.

### In Battle in Central Solomons

### Sea Force Heavily Damaged

By SANDOR S. KLEIN  
Known to The Edmonton Bulletin  
Copyright, 1943, by British United Press  
WASHINGTON, July 6.—American warships have inflicted heavy damage on a Japanese naval force they engaged in the narrow confines of Kula Gulf in the central Solomons, the United States navy announced today.

The navy reported the loss of U.S. destroyer Strong in a previous action.

Our forces suffered "some damage" in the Kula Gulf engagements which began early Tuesday morning (Solomons time), but "considerable damage" was done to the enemy warships.

DETAILS LACKING  
Details of the engagement were still lacking, the navy said.

The Kula Gulf action followed by 24 hours an American naval bombardment of Japanese positions at Vila and Buiroko on opposite side of Kula Gulf.

It was during this bombardment that the Strong, a 2,100-ton craft, was torpedoed and sunk. Normal complement of the Strong was estimated to be about 250 men. She was commanded by Commander Joseph Harold Mellings, of East Boston, Mass.

A naval spokesman said although definite information is lacking, it is assumed the Kula Gulf battle as such is over. But, he added, "we can expect a continuation" of hit-and-run engagements, such as those which characterized the battle for Guadalcanal last year.

LIGHT FORCES USED  
Furthermore, the spokesman said on the basis of present information it would appear that only light forces were used.

### Russians Halt 1st Onslaught Against Lines

By HENRY SHAPIRO

Excerpted from The Edmonton Bulletin  
Copyright, 1943, by British United Press  
MOSCOW, July 6.—The Red army reported today that it had stopped the first onslaught of a powerful German offensive along a 160-mile front which in 36 hours cost the Nazis 10,000 men killed, 738 tanks and 233 planes.

A Berlin broadcast said the Russians had launched a "relieving attack" south of Orel, where savage fighting was going on. The Soviets also threw in considerable quantities of troops and tanks on the Belgorod front, the radio said.

Late reports from the blazing battlefronts said that after the initial impact, the Russians were counter-attacking along the front line between Orel and Belgorod, regaining all lost ground, and wiping out several German divisions in the process.

Hitler's third and long-delayed summer offensive appeared to be developing with great speed, but it lacked the customary speed and spectacular early successes characteristic of his previous drives, and the toll was the heaviest suffered by the Nazis at any of their offensives in Russia.

TURN BACK TANKS  
(The Columbia Broadcasting System reported from Moscow that Russian planes, tanks and infantry were counter-attacking along the front line between Orel and Belgorod, regaining all lost ground, and wiping out several German divisions in the process.)

The Red army has delivered the "proper rebuff," the Soviet radio reported. "The enemy has suffered terrible losses. Hundreds of panzers already are clattering the battlefield, and many dozens of planes and thousands of corpses are littering the forward positions."

Urging strong discipline in the face of what he called the "new line" to Russia's discipline, Red Star said.

### Selective Service Registrar Is Arrested for Conspiracy

Exclusive to The Edmonton Bulletin  
Copyright, 1943, by British United Press

OTTAWA, July 6.—Labor Minister Humphrey Mitchell announced this afternoon that the divisional registrar of National Selective Service, R. A. Irwin, and "several" others, "not connected with this or any other government" have been arrested on charges of conspiracy. He made this announcement in the House of Commons in reply to questions asked by opposition leader Gordon Graydon.

Graydon referred to news in which the arrests were announced from Toronto.

Mr. Mitchell said the charge against the registrar was laid under a section of the mobilization act making it an offence to nullify or obstruct the regulations made under either persons in no doing.

The minister said an inspector in the mobilization section already had been named acting registrar.

TORONTO, July 6.—(C.P.R.) A twin division registrar of the mobilization section of National Selective Service, and three other men were arrested today by Royal Canadian Mounted Police on charges of conspiracy.

The others arrested were: Robert A. Irwin, former registrar of National Selective Service, and former Liberal M.P.P. for Toronto Riverside; Naifee S. Stephens and Norman Stephens, brothers.

The four are charged with conspiring to impede the National Selective Service mobilization regulations.

GIVE NO DETAILS  
Police gave no details, an R.C.M.P. spokesman saying, "We are under orders not to discuss the case. There will be a statement from the labor minister and I must refer you to him."

The charges arise out of defections from military service. It is reported that at least 40 other men of military age who are shipping, have obtained deferment may be charged as delinquents failing to report for service. It is reported that other arrests from the Selective Service office will be made.

The men were arrested this morning and taken to R.C.M.P. headquarters. They will not appear in court until tomorrow.

R. J. Davis, inspector with the Selective Service branch at Ottawa has been appointed temporary division registrar here.

### 15 Men Believed Dead in Collision

HALIFAX, July 6.—(C.P.R.)—A freighter with which was running parallel to the Halifax Shipyards Ltd. tug "Reg" was hit by the bottom in Bedford Basin here this morning, and it is believed that have taken 15 men to their deaths with her.

The 55-foot tug, generally used by the shipyards to carry welding equipment for repairing ships, was conveying a large crew of welders and electricians to a ship in the basin when the accident occurred.

It was believed to have 27 men on board at the time of the collision. It was believed that seven of the men were killed and 20 were injured. The ship was picked up by a tugboat and taken to the shipyard.

It was at first believed that 18 had lost their lives.

### You May Help

### Greeks Seeking Assistance in Fight For Life

The Greek Greek War Relief Committee, which is raising the largest sum to date for supplies of medicine, clothing and food for the people of Greece. At last reports, the committee had raised twice the amount of the last year.

The Greeks are paying a terrible price for their heroic resistance to the Axis. Thousands of them are dying daily, ravaged by disease and hunger. Thousands are being expelled from their homes.

You cannot stand by and watch small a donation you are able to make, do not hesitate. Every nickel will count in this heroic effort.

Contributions should be sent to J. G. Nickerson, manager, Edmonton. Continued on Page 2, Col. 3

### Cancel Leaves Canadian Airmen Win Decorations

LONDON, July 6.—(C.P.R.)—The awarding of two Distinguished Flying Crosses and two Distinguished Flying Medals to members of the R.C.A.F. was announced here today.

Awarded D.F.C.s were Acting Sqdn. Ldr. E. Logan of Ottawa, and Sgt. H. J. Jennings of Ottawa. The D.F.M.s were awarded to Sgt. D. V. Smith of Toronto, and Sgt. H. L. McLean of Vancouver.

No details concerning the awards were released here.

### B.C. Judge Named To Appeal Court

OTTAWA, July 6.—(C.P.R.)—Mr. Justice H. B. Robertson, judge of the Supreme Court of British Columbia for a decade, has been appointed a judge of the British Columbia appeal court.

Mr. Justice Robertson succeeded on the Supreme Court bench by A. D. MacFarlane, K.C. of Victoria.

### Eight Midget Subs Sunk in Solomons

NEW YORK, July 6.—(AP)—The U.S. navy reported today that at least eight Japanese midget submarines had been destroyed in the Solomons area. The report covered was not disclosed.

### Hawaii Governor Receives Award

WASHINGTON, July 5.—(AP)—The United States war department announced today the presentation of the Distinguished Service Medal to Lt. Gen. Delos C. Egan, former commander of United States army forces in the central Pacific and military governor of Hawaii, and disclosed he has been assigned at least temporarily to duty in Washington.

The award was announced in the London Gazette and the citation said only that it was granted "for his services in the Pacific theater of operations during the war."

TCA Control Office  
In Toronto Opened

TORONTO, July 6.—(C.P.R.)—Major Fred Conroy yesterday formally opened the new Trans-Canada Airlines central reservation control office here. W. F. English, Winnipeg, assistant vice-president of TCA, said the office is believed to be the first of its kind in the world.

The office is believed to be the first of its kind in the world. It is believed to be the first of its kind in the world.

### Long Debate House Passes Resolution For B.N.A. Act Amendment To Defer Redistribution

OTTAWA, July 6.—(C.P.R.)—The House of Commons last night approved a resolution calling for amendment of the British North America Act to defer until after the war, redistribution of the population on the basis of the 1941 census.

The motion approving the resolution was passed immediately after the House voted 116 to 9 in favor of a motion by Prime Minister Mackenzie King that the government would not make any amendments to the constitution.

There was no recorded division of the main motion.

Approval of the resolution is a step in the process by which the government will approach the Dominion parliament through the King asking that a B.N.A. act amendment, permitting

amendments to be made.

There was no vote against Mr. King's motion, which was that the question be not put on Mr. St. Laurent's motion, which was that at least eight Japanese midget submarines had been destroyed in the Solomons area. The report covered was not disclosed.

### Italians Cancel Leaves Commando Raid on Crete Heightens Invasion Fears

Berlin Writer  
Raps Japanese

STOCKHOLM, July 6.—(AP)—The Berlin correspondent of the Stockholm Tidningen quoted Maj. Otto Moudorf, German military commander, today as saying that the Allied South Pacific offensive "may be the beginning of a decided turn of events for the Japanese."

For the last six years, Moudorf was reported as saying, the Japanese have failed to fulfill their promises "to finish the Chinese war quickly."

The intended Allied aerial assault on Axis airbases in Sicily, as well as the increased insistence encountered, also pointed up the threat to that sector of the Mediterranean front.

The National-controlled Vichy radio said that every Allied port from Gibraltar to Ceylon was crowded with naval craft ranging from battleships to invasion barges.

TALK SEPARATE PEACE  
The question of a separate peace whereby Italy could withdraw from the war was being actively discussed in Premier Mussolini's domain the Alpine resort of the Dolomites.

A European underground said Continued on Page 2, Col. 8

### Thousands Miners Returning to Jobs

PITTSBURGH, July 6.—(AP)—Thousands of the first group of 50,000 striking miners went back to the pits today and district leaders announced that the strike was practically over.

He was responding to a question from M. J. Caldwell, C.C.F. leader, who reminded the minister of his promise earlier in the season to introduce such an amendment.

Official opening was by Air Vice-Marshal G. R. Henson, M.C., air officer commanding No. 4 training command, assisted by two American military officials from Alaska: Col. J. W. Gaffney, representing the U.S. Army in Alaska, and Col. D. V. Gaffney, representing the U.S. Air Force in Alaska.

## Western Labor Board Opens Sitzings Here July 12

### Discussions on Wages For Canadian Employees U.S. Firms To Be Feature

Wage increases for Canadian employees of Bechtel, Price, Callahan; the authorization of wage rates for crane-men, wharfingers, painters and others engaged by Butler and Hawkins Ltd., contractors, and the application by the Imperial Oil Ltd., to fix rates of wages for occupational classifications of labor employed on the Fort Norman, N.W.T., drilling operations are three matters that will be dealt with by Western Labor Board which holds its opening session at the Edmonton court house on Monday, July 12.

### Dies in England

Richard S. Ghiselin, son of Mr. and Mrs. R. Ghiselin, 12606 104 ave., died at Oxford on July 4 after a lengthy illness, according to cable advice received here by his parents.

### U. of A. Scholar, R. S. Ghiselin Dies at Oxford

Richard Somerville Ghiselin, son of Mr. and Mrs. R. Ghiselin, 12606 104 ave., died at Oxford, England, on July 4, according to cable advice received here by his parents. He had undergone an operation for an old ailment.

Born in Edmonton on Sept. 27, 1923, he was educated at Glenora and Westmount Schools and was graduated from the University of Alberta in 1938 in philosophy. He won the Parks Scholarship which carried with it three years tuition at Oxford University. He was the first western student to win this coveted scholarship.

He completed his course of studies at Oxford in 1941, and immediately joined the staff of the British military force and power. He was in this department at the time of his death.

As a member of the Delta Kappa Epsilon fraternity, he was elected to the scholarship of that fraternity in 1938, an honor seldom attained by Canadian students. He was also the winner of the Philosophical Society essay competition.

He is survived by his father and mother, and one sister, Mrs. Robert F. Cockburn, at present in Newfoundland.

### Indian Is Killed

Wilfred Littlechild, 18-year-old, was accidentally shot and killed Monday night by John Lee, 17-year-old, an Indian, R.C.M.P. authorities in Edmonton were notified.

The fatality occurred about five miles west of Hobbema and was investigated by the Wetaskiwin detachment of the R.C.M.P. No inquest will be held, it was stated.

### Police Report Series Thefts: Cash, Material

Reports of several thefts reached city police at the beginning of the week, two of which concerned money and another of building material.

Frank Ward told police he had gone to sleep in a 101 street car Monday night and a man, whom he named, had taken \$12 from his wallet. Policemen Mrs. Hinchey and Mrs. Plouffe, McMillan, were called over in a patrol car that the individual had disappeared down a lane between 101 and 103 avenue. A search failed to locate the culprit.

Sam Dethel, 1063 96 street, said a zipper wallet containing \$63 national registration certificate and personal papers had been stolen from his locker in a parking house.

Dethel stated he had changed his clothes in the locker room and went to work on the killing floor at 8:30 a.m., and when he returned in the room shortly after 3 p.m., he found the door partly open.

A search failed to locate either the money or the wallet, while it was learned that about 100 men used the locker room and are coming and going at all hours. The padlock showed no signs of having been picked, it was stated.

C. H. Hinkley, 900 13 avenue, said he had been to a party at a house he was building. It was learned a 12-year-old boy had taken the setting, which he sold to a friend, for \$10. The youth, found to be home sick with the measles, had brought the setting home, his mother said. The lad denied having sold it.

### Unusual Class To End Course Here on Friday

A class unusual in the history of the British Commonwealth Training plan will be graduated Friday, at No. 7 A.O.S. England, Australia, New Zealand and many other provinces of Canada will be represented.

The summer course, which opened February at No. 7 A.O.S. at Pease, Alta., and after six weeks there, was moved to No. 7 A.O.S. in Regina, Sask. Eight weeks later, the class was transferred, this time to No. 7 A.O.S. in Edmonton, where the men will be graduated.

A graduation banquet and dance will be held in their honor, Tuesday night at the Macdonald hotel, by the members of the University of Alberta, the summer school of which institution offers 26 courses to students desiring to complete work in the department of education. The graduation ceremony will take place at the same time as the University summer school.

# Women Won't Talk

By RENE RYAN MATT

## CHAPTER XXIV

It was Kathy's great moment and she was magnificent. She marched up to Shaw with her head held high and her eyes flashing scornfully at him.

"Nice work, sheriff," she taunted. "You've built a perfect case out of guff. And if it was anyone but Gram I'd let you get away with it. Sorry to spoil your climax but I killed Derek Grady."

No one seemed able to say anything.

"I killed him, but you'd never have proved it on me," she went on to cover for you. I destroyed the only evidence you would ever have had against me. Destroyed it yesterday and no one suspected. My black coat, the black coat with the bullet hole in the pocket. I carried it out of here before they very eyes—Gram even saw me and talked to me in the hall. I took it on the lake and filled the pocket with stones and sank it."

Shaw waited until she had finished then then said quietly, his words deflating her like a pinprick. "I was wondering if I'd have to take your grandmother in jail before you'd break down and confess."

She struggled vainly to regain her self-possession as he rounded questions at her. She had gone to the bank in Linton the morning of the day when Grady was killed, hadn't she? Yes, she had tried to cash a check for \$1000, hadn't she? And the bank had had to do with stones and sank it. And the cashier had told her she couldn't get it until morning even by going to Middleton, for the banks closed at noon on Thursdays, taking their half-holiday in midweek instead of on Saturday during the summer, wasn't that right? Yes, and Derek had gotten pretty nasty, hadn't he, when she went back to him with only \$500 for her cousin?

## HOLD EVERYTHING

Hold everything! What a magnificent performance! She looked down at the stars, but once there I told her she was back and my lady-in-law door family in her face. Then I went to bed and to sleep. I slept all through until the next morning and woke to find a girl dead at a window and rain pattering against the window pane. Kathy turned toward him. "I'm sorry, George. That I got you into this mess. She looked down at her bare left hand. "I can't give you back your ring—lost it—lost it please understand that our engagement ended. You're not in blame for any of this, and it's no fair that you should suffer."

George's face flamed, and what do you take me for? I'm sticking of course! The odds of the George Bakkers never allow them publicly to run out on a woman.

And so George and Mattison and Walter went along when Shaw told Kathy away. Mattison giving me an odd look just before he went out the door.

Cornie stayed behind, obviously thinking of her duty to take care of me. I let her help me up the stairs, but once there I told her she was back and my lady-in-law door family in her face. Then I went to bed and to sleep. I slept all through until the next morning and woke to find a girl dead at a window and rain pattering against the window pane.

wait until morning, the police were not hot on his trail."

Kathy's lips opened but no sound came from them, and there was a shudder in her eyes. Shaw waited a moment, and then he said, "You want going to speak, asked 'What did he do?' Threaten you with physical harm?"

Kathy wet her parched lips. "No, he—he was just a jerk. He wanted—and I said I couldn't give it to him—it was my engagement ring and then—he took it from me. He—he hurt me. She swallowed once. "I had the gun in the pocket of my coat—I had gotten it for him out of the desk in Gram's room, and so—so I shot him."

It was at this point that George Baker got up from his chair with the jerky motion of a jack-in-the-box. He strutted up to Shaw. "See here," he ordered trying to make his falsetto voice belittling.

"What's the use of airing all this in public? What if she did kill the man? He deserved it, didn't he?" He fumbled at a pocket and drew out his cheque book. "Just forget all this. I'll pay you anything—anything you say. No price was too high to protect the precious Baker name from any connection with scandal."

But George had made a mistake. Shaw didn't even bother to answer the dapper little banker, just turned a broad shoulder in his face and spoke to Kathy. "Are you ready to go now?"

What happened after that was anticlimax. George's splutterings became abusive—something about the complete assistance of policemen.

Kathy turned toward him. "I'm sorry, George. That I got you into this mess. She looked down at her bare left hand. "I can't give you back your ring—lost it—lost it please understand that our engagement ended. You're not in blame for any of this, and it's no fair that you should suffer."

bring my breakfast upstairs, and I'll stay when Walter came in. He gave me a couple of pieces of bad news to digest along with my meal and marmalade. First, he said Kathy would have any day in jail. There was something in the law which said a person charged with murder couldn't be released on bail. Then he added that George Baker was flying east to engage the best criminal lawyer available for Kathy's defence.

Those were a couple of angles I hadn't counted on. I thought things over as soon as Walter left I got up and down and even down stairs and called Clint Mattison at the Cottage. I asked him if he'd drive me to see Kathy.

That was the funny part of it. I didn't wait for Mattison to come looking for me. I went for him. And so I had no one but myself to blame for what happened after that.

## McCoy Health Service

Many of the letters I have received recently deal with questions about normal conditions of the tongue and mouth. Recently, people are interested in three particular trouble, and this article is written to help them.

Glossodynia is one of the disorders which may affect the tongue, producing a painful sensation. Generally, both sides are painful. Instead of complaining of pain, the patient may complain of a burning sensation or may say that the tongue is itchy. It has been said with truth that this condition may arise from a number of causes, such as pressure from dental restorations which do not fit properly, periodontitis, and a deficiency of vitamins in the diet. When the cause can be found and corrected, the outlook for relief is good.

Neuralgia of the tongue is a pain on one side alone. This pain following closely the course of a nerve. Irritation of the tongue, or glossitis, not only causes pain, but causes the formation of bright red patches, which are irregular in outline and are sharply defined. These patches may be smooth and glossy. Glossitis often due to some form of anemia.

Burning of the tongue may be due to inflammation, or in a few cases is due to the patient being sensitive to the rubber used in artificial dentures. Sometimes it is a dry fissure, or the result of the use of a faulty appliance.

Coating of the tongue is a very familiar symptom. A heavy coat is often due to constipation, liver or gall bladder trouble, indigestion, or colitis. It may be due to an unbalanced diet, or may be a change to better eating habits will bring relief.

When the tongue is coated, the most likely place to look for trouble is the tongue itself.

Perilous lesions in the mouth are commonly reported and may occur as cancer, leukoplakia, or leukoplakia. The patient may complain of a burning sensation, or may have a change to better eating habits will bring relief.

## Noted Musician Kiwanis Club Guest Speaker

Music is a boundless art, an art that concerns us from the cradle to the grave, an art everyone can understand, and one that is loved by old and young, rich and poor alike, said Ernest Seitz, member of the faculty of the University of Toronto, Conservatory of Music, to members of the Kiwanis Club who met at the Macdonald Hotel Monday.

Continuing, Mr. Seitz said that music is an inseparable part of our life. It enters into our culture and enhances life and what has to offer. Only if music was removed from the world would we realize the loss we had sustained.

**DISCUSSES "LISTENERS"**  
"Speaking About Music" was the title of his subject, and the discussion concerned listeners, rather than artists. The writer of the world-famous "The World Is Waiting for the Sunrise" referred to "listeners" who did not have an "open mind"—those who did not think music of any importance he spoke about those who fidgeted, beat time with their feet or fanned themselves furiously during the performance of a piece of music as being ill-bred. He mentioned the "ambitious highbrows" who were menaces and pests because they had put their feet to all other works had no value.

He labelled the "jealous listener," mostly professional jealousy, as invidious and contemptible, and said he could not understand such jealousy. The best listener, he said, was the one who combined intelligence with discrimination.

Speaking of the song written by himself, and incidentally, sung by guest artist Bernice McNeill, Mr. Seitz told a couple of stories about himself. One concerned a trip to train, shortly after the song was first published, the coach, upon which he sat, three men, one of whom began whistling the refrain. A second referred to it as having been written by a Canadian musician. The third boasted being personally acquainted with the author. Mr. Seitz grinned in recollection he had never laid eyes on the man in his life.

**SONG "POPULAR"**  
He was awakened in bed one night, he stated, and reached for the telephone beside him. A voice asked if he was the composer. "The World Is Waiting for the Sunrise," he had become a "drunk song" continued the voice, and upon being asked to explain, declared that "Sweet Adeline" and "Tears a Long, Long Trail," had been superseded by his song.

Also contributing to the program were Don Wilson, who recited Abraham Lincoln's Gettysburg address, and Bernice McNeill, soloist, accompanied by Betty Sims at the piano.

**Joins Air Force**  
A prominent Edmonton surgeon, Dr. Walter Anderson, has been appointed command surgeon of No. 4 Training Command, R.C.A.F., with the rank of squadron leader. Dr. Anderson, whose father is superintendent of the Royal Alexandra hospital here, will leave next week to assume his duties. He is expected to headquarter his staff at Calgary.

## Daily War Map—Exclusively in The Edmonton Bulletin

The map above shows the combined American forces made what may be one of the most important advances in date in the Solomon Island area. Advancing the U.S. front 110 miles in one bound, they landed on Rendova, Island, breaking the Japanese southwest Pacific perimeter and putting our spearhead within five miles of the big Japanese base on Guadalcanal, across a narrow strip of water from Rendova.

## Edmonton Airmen Has Exciting Time

Sgt. Gerald Ems, 25-year-old Royal Canadian Air Force aviator, told Edmonton, who was eight days absent in a rubber ducky in the English Channel recently, has received some compensation for his ordeal. His claim to have destroyed one of the five F.W. 190s which forced him to bail out has been confirmed by Fighter Command intelligence officers. He is also credited with having damaged another of its attacks.

Sgt. Ems, who was on patrol off the French coast, was ordered from other members of his squadron when he chased a F.W. 190 in. As he returned the French coast to rejoin his colleagues, he was attacked by five F.W. 190s which were being immediately jolted to three others.

"The five fighters began taking it in turns to dive down and land me," he says. "Then two of them came down together. I broke away violently and saw shell bursts behind me. One of those Hun bombers pulled out—he went straight into the drink."

"The other one joined up with the rest of the bunch and they just followed me doing no more than for about three minutes. Then two went home and the remaining two carried out the attack. I got in a long burst at one of them, damaging his port wing and then he went off the drink."

"Then my troubles began. My engine began to run very roughly, pouring oil and smoke and then cut out altogether. I was very low when I bailed out. I was very low when I bailed out the plane. I just took up the slack before I hit the water. Just as I touched the water the last F.W. dove low over me but fortunately he did not fire."

**Worker Injured**  
Paul Ruchonnet, 33-year-old worker who arrived from Saskatchewan last day, worked but two days before becoming victim of a mishap. He was employed at the South packing plant for only two days.

Like most Canadians, I've had the urge to help get this war won—but how? The army turned me down, so I just stood along at my old job (and it wasn't essential war work)—but I've been a reader of the Help Wanted columns of the paper ever since I got my first job—and the thought struck me that with all these essential jobs that are crying for men, that I'd just look for a war job for the duration—and my old firm wants me back when they get back to peacetime production.

## Review of Damage

## Cologne, Airfields in France Devastated by Heavy Raids

LONDON, July 6.—(CP)—The air ministry news service and United States army headquarters last night reviewed damage wrought on Cologne and the French airfields at La Mene, Nantes and La Palme during last week's aerial poundings by the Allied air arms, while the R.A.F. took up the assault in daylight attacks yesterday to blast targets in northern France.

R.A.F. Mustangs that up six locomotives and attacked other ground targets, including railway bridges, engine sheds and freight cars, said the ministry. Returning pilots reported seeing 30 German soldiers on bicycles, fired on near Abberville, "fell off their bikes and several were seen running." Two Spitfires damaged a vessel off the French coast, the news service said.

The air ministry said photographic experts examined reports of destruction brought in by R.A.F. and U.S.A.F. raids July 5 and also verified "heavy industrial damage" caused in the Rhine city in June 28 raids.

**RAIL OBJECTIVES HIT**  
In the June 28 raid, the great Cereen railway yard, the main rail station and many industrial plants were seriously damaged, it said.

In the second raid the objectives were the Kalk and Deutz districts of Cologne, the east side of the Rhine and large industrial areas were heavily damaged.

A reconnaissance plane found the area still covered by clouds and black smoke Sunday.

The news service said these two raids on Cologne within a week produced "well over twice" the weight in bombs dropped in the 1000-bomber attack and "devastation has been far greater."

A preliminary examination of photographs, it said, indicated that the "most important of the objectives sustained some roof damage but the rest of the structure appears unaffected."

The two "huge factories" of Hindenburg-Diesels that made most of the Diesel engines for U-boats were reported damaged. Despite a pall of smoke from the larger factories, the photographs showed a great many of the smaller buildings in the area "heavy damage" could be seen.

**"DAMAGE" SAID**  
"The damage," said the bulletin, "makes it certain that at the very least production in Cologne will have been seriously affected and this in turn must affect the whole of Germany."

Many other factories were hit and railway damage was severe. Damage of a considerable portion of the Cologne-Rhone area, the main building at La Mene was among the results of the three-pronged assault against the continent's largest air bases. The results were "satisfactory," the ministry announced.

Photographs showed the bombing results were "satisfactory," the ministry announced. Many hits were scored on an aircraft depot close to the Chateau Bougon airbase near Nantes, one of the largest establishments in France for storage and repair of Heinkel 111's.

**DIRECT HITS SCORED**  
Direct hits were registered on a freight yard near the Gnome-Rhone works and at least four freight trains were left in the track bed. About 100 other cars were destroyed and several others were severely damaged or derailed.

More than 100 craters were blown into the Mans-Arras airbase, including 25 on the main runway, the photographs showed. A U-shaped aircraft shelter was destroyed and another in a dispersal area was damaged.

At La Pallice a heavily-armored aircraft engine and a direct hit, drydock installations were damaged, two bombs smashed into a large shed and three others were to be other hits on a concrete shelter over a new lock, it was announced.

**FACTORY "HIT BY BRICKS"**  
Airmen in the formation attacking La Mene said "we made a pile of bricks out of the factory."

Others, returning from the attack on Nantes, said "there was absolutely nothing left of the grain depot, because bombs covered the whole area."

**Ukrainian Graves**  
Ukrainian Graves of 1,000 Murdered Ukrainians Found  
NEW YORK, July 6.—AP—The Berlin radio claimed last night the graves of 1,000 murdered Ukrainians had been found near Zhitomir—about 80 miles south of Kiev.

The broadcast reported by The Associated Press, asserted it had been made by a German official who was in the area between 1938 and 1941 and collected the bones of men, women and children.

The Nazi announcer said examination had begun and it would be proven that the murdered all were victims of the Gypsies, Russian and white race.

**U.S. Silver Freed**  
For War Purposes  
WASHINGTON, July 6.—(AP)—The house of representatives approved a bill releasing government-owned silver for war purposes. It would allow the government to sell silver for domestic purposes "including the making of machine tools and the supplying of civilian needs" at a price of 71½ cents an ounce.

The bill states in the article that silver shall be in the article.

Store Opens at 9:30 a.m., Closes at 5:30 p.m. Daily, Except Wednesday, 9:30 a.m. to 12:30 p.m.—To Call EATON'S, Dial 9-1-2

# EATON'S

## Wednesday Morning F-A-B-R-I-C R-E-M-N-A-N-T-S

Many Useful Pieces in Smart Fabrics  
Lengths suitable for children's wear, blouses, jackets, shirts. Choose from cotton prints and broadcloths, plain and printed rayon crepes, fine wools, rayon satins and shirtings. You'll save substantially if you shop for these early Wednesday morning. HALF-DAY SHOPPING.

Each 10c to \$3.95  
—Remnants, Main Floor

## WOMEN'S RAYON PANTIES

Dainty panties of knitted rayon—so cool for Summer, so easy to launder! Brief style with neat fitting waistband—colors of peach and white. Small, medium and large sizes. HALF-DAY SHOPPING, PAIR,

39c  
—Lingerie, Second Floor

## FULL FASHIONED HOSE

Thrifty Price on Substandards!  
Shop early Wednesday morning for these—they represent grand value! Lovely full fashioned rayon hose—assorted weights in 100% semi-sheer, Benberg rayon or cotton lisle tops—reinforced cotton lisle toes, heels and soles. The slight flaws that class them as substandards should not affect appearance or wear! Sizes 8½ to 10½. HALF-DAY SHOPPING, PAIR,

69c  
—Hosiery, Main Floor

## STAPLON SERVICE WOOL

Sturdy four-ply service wool in approximate 4-ounce balls. Enough in a ball to make one pair of regulation size socks! Colors of khaki, navy, black, grey, heather and air force blue. HALF-DAY SHOPPING, BALL,

59c  
—Wool Section, Main Floor

## SMART MAGAZINE RACKS

Good looking magazine racks—inexpensively priced! Useful addition to your living room! Sound birch construction in a rich walnut finish. HALF-DAY SHOPPING, EACH,

\$1.69

## B-U-Y-A F-O-O-T-S-T-O-O-L!

Grand to come home after a hard day's work, settle down in your favorite easy chair and rest your feet on a comfortable footstool! These are of birch construction with toolled legs, finished in walnut. Upholstered in cotton velour. HALF-DAY SHOPPING, EACH,

\$2.95  
OTHERS AT \$6.65 and \$9.95  
—Furniture, Second Floor

## BOYS' COTTON SHORTS

Shop Early Wednesday Morning!  
Cool, yes—but sturdily made too, so you can depend on them to give grand service. More than that, the price is extra thrifty! Cotton twill shorts for rough-and-tumble boys in the 4-to-12-year group—suitable for wear at home or at the beach this Summer! Snug fitting waistband—colors of khaki and navy. HALF-DAY SHOPPING, PAIR,

79c  
—Boys' Wear, Main Floor

## EATON'S BARGAIN SECTION

Shop Wednesday for these very important values in the Thrifty Bargain Section on the Lower Floor. No Mail Orders. No Delivery.

Shirting Remnants Flannelette Sheetings  
Khaki cotton shirting in approximate 27- and 34-inch widths. This will make up into excellent wearing work shirts for men and boys. 1- to 4-yard pieces. YARD, 10c

Fluffy, napped cotton flannelette in approximate 72-inch width. Choose from into excellent wearing work shirts for men and boys. 1- to 3 yards. YARD, 25c  
—Bargain Section, Lower Floor
